

## The Naturals Backstory

Avitech has manufactured a wide range of avian supplements for almost 30 years. Recently we have noticed and responded to a demand for all-natural, artificial ingredient free, preservative free nutritional products for a market that is continually evolving and for birds whose diets are extremely diverse.

Since birds are on diets that range from seed, sprouts, chopped fresh fruits and vegetables, bird breads and cooked diets, we wanted to introduce a line of supplements that complement these various regimens. Most of The Naturals can be added to all of these diets and will help round them out nutritionally where they might be lacking.

For example, we know that Australian Finches, particularly Lady Gouldians, need more iodine in their diets to prevent baldness and other health issues, hence our Avikelp granules. Also, South American species require more Vitamin A in their diets which is where Avilina and Avigreens are helpful. The same goes for African birds whose diets in the wild consist largely of palm nuts, hence the introduction of Aviglo palm oil. And finally, all birds need a flavor and overall boost in their diets at times in order to encourage them to consume things that they might not prefer and this is where Enhance comes into play.

All of The Naturals come from nature and will provide your bird with the best that it has to offer. Try our products and, as a result, enjoy seeing your bird become healthier and happier.

## THE NATURALS

The world's first, and only, comprehensive line of all-natural nutritional supplements for birds.

- All Natural
- Convenient to Use
- Easy to Store
- Improves Acceptance
- Enhances Taste
- Organic and Self-Sustaining Where Possible
- No Artificial Colors or Flavors
- No Preservatives

# THE NATURALS

Avitech's comprehensive line of all natural avian nutritional enhancements are specifically designed to be used with all of your bird's meals. The Naturals can be used with seeds, pellets, chopped fruits and vegetables, sprouts and baked into bread. All ingredients are Organic, Rainforest Alliance approved and self-sustaining where possible. No artificial flavors, color or preservatives are used. Avitech currently offers the world's only complete line of natural, safe, bird-specific products with your birds happiness and your peace of mind always our top priorities.

## Enhance

Vegetable/Fruit/Berry/Sprout Powder

Enhance is our cold processed, freeze-dried powder that contains 10 veggies (carrot, beet, broccoli, cauliflower, kale, spinach, sweet potato, tomato, red bell pepper, and corn), 8 fruits (apple, orange, mango, papaya, pineapple, pomegranate, banana, and grape), 4 berries (blueberry, cranberry, raspberry, and cherry) and 3 types of sprouts (sprouted wheat, barley, and alfalfa). This great tasting enhancement turns every meal into a treat! A natural source of Vitamin A, C, and E. Use along with fruit and veggies, bird bread, pellets, seed and add to nestling food.

## AviFlax

Golden Flakes of Ground Flax,  
USDA Certified Organic

Aviflax is made from US grown, non GMO, organic flax cold processed to preserve its shelf life and nutrients. This human, food grade flax provides a source of Omega 3, 6, and 9 as well as fiber, phytonutrients, and protein. It is also an outstanding source of many essential nutrients including folate, vitamin B6, pantothenic acid, magnesium, potassium, iron, copper, calcium and phosphorus. Feeding Aviflax to your bird can help promote heart health, improve skin and feather condition and reduce feather picking.

## NutriGreen

Moringa Leaf Powder,  
USDA Certified Organic

NutriGreen, our human grade, cold-processed, freeze-dried organic Moringa leaf powder, comes from the world's only USDA certified organic grower. NutriGreen Moringa is an all natural source of Vitamins A, B's, C, D and E, 15 minerals including calcium, iron, potassium and magnesium, 18 amino acids as well as chlorophyll, carotenoids, lutein, and Omega 3,6, and 9, 46 antioxidants and 36 anti-inflammatory compounds all naturally occur in the miraculous Moringa plant. Moringa powder has more calcium than milk, more Vitamin C than oranges, more iron than Spinach, more potassium than bananas and more beta carotene than carrots. Sprinkle onto fruits, veggies, bird bread, seed and egg food as a natural boost to any diet.

## AviGlo

Unrefined Brazilian Dende Palm Fruit oil,  
USDA Certified Organic

Rainforest Alliance approved and certified, Aviglo is a rich red palm oil which provides the world's best natural source of carotenes (Vitamin A precursors) and is also naturally provides Vitamin E and Omega 3 and 6. Recommended for all birds especially African Greys, Macaws, and Palm Cockatoos. Palm nuts make up a large part of bird's diet in the wild but are hard to come by in their original "fruit" form but now you can drizzle over fruit and veggies and add to bird bread for a back to nature experience that your bird is sure to enjoy!

## Avilina

USA Grown and Harvested,  
All Natural Spirulina

Avilina spirulina has been scientifically proven to strengthen the immune system, improve color, plumage and increase fertility. Avilina contains natural Vitamin A in the form of beta-carotene which birds can safely store and use as needed. Avilina can be added to veggies, fruit, birdie bread and handfeeding formula to improve growth rates and boost the immunity in young and adult birds. Avilina is non GMO, pesticide, herbicide and preservative free.

## AviKelp

Easy to use Kelp Granules for Birds

Avikelp is harvested from the cold, clean waters off the Main coast, responsibly harvested to ensure a sustainable resource and is processed to USA high quality standards. Avikelp is a source of 60 minerals and elements, 21 amino acids, 12 vitamins (including A, C, E and thiamin). Avikelp increases egg production, helps birds produce healthy yolks and strengthens egg shells. The iodine content is essential in the breeding of finches.

## CocoLoro

Unrefined Virgin Coconut Oil,  
USDA Certified Organic

CocoLoro coconut oil is 100% organic and a natural source of Lauric Acid which is antimicrobial, antifungal and antioxidant. Coconut oil is also anti-cholesterol and along with being added to food can be used to hydrate dry skin and beaks by topical application. The fresh coconut taste and aroma is also sure to appeal to your bird's culinary taste. Drizzle on fresh fruits and veggies for a real tropical taste sensation!

## AviGreens

Premium Superfood Mix

Avigreens contains all the great supergreens including Wheat Grass powder, Barley Grass powder, Alfalfa Grass powder, Spirulina, and Chlorella. These select ingredients are a natural source of Antioxidants, Omega 3 & 6, Beta Carotene, chlorophyll, beneficial enzymes and 100+ vitamins and minerals. Avigreens provides a convenient and natural way to supercharge your bird's diet in any season. Sprinkle on sprouts, fruit and veggies or birdie breads for a world class nutrition boost.

## AviPollen

Wildflower Pollen, Easy to Use Granules

Avipollen is a natural source of the B complex vitamins, vitamin A, C, D, and E. It also provides several minerals as well as active enzymes and amino acids. Avipollen also contains lecithin, beta carotene and selenium. These nutrients are quickly absorbed and bioavailable resulting in an excellent natural supplement for all birds.
