MATERIAL SAFETY DATA SHEET	COCCIVET
-----------------------------------	-----------------

Date of Issue: 22 July 1999	Issue 1
Not classified as Hazardous according to criteria of Worksafe Australia.	

USES: For the treatment of Coccidiosis in birds.

SECTION I - IDENTITY

Product Name:	Coccivet
---------------	----------

Active Ingredient 1:	Ethopabate
Chemical Name:	4-Acetamido-2-ethoxybenzoic acid methyl ester
CAS Registry Number:	59 - 06 - 3
Proportion:	5.1 g/L

Active Ingredient 2:	Amprolium
Chemical Name:	1-[(4-Amino-2-propyl-5-pyrimidinyl)methyl]-2-methylpyridinium chloride
CAS Registry Number:	121 - 25 - 5
Proportion:	80 g/L

SECTION II - PHYSICAL DATA

Appearance:	Translucent liquid.
Colour:	Light straw colour.
Odour:	Fine alcoholic odour.
pH:	2.40 – 3.20.
Stability:	Stable.
Specific gravity:	0.955 – 0.975.
Solubility:	Completely miscible with water.

SECTION III - HAZARDOUS INGREDIENTS

Avian Insect Liquidator contains no ingredients considered to be hazardous by Worksafe Australia.

SECTION IV - FIRE AND EXPLOSION HAZARD DATA

Flammability or explosion limits:	Cocciwet is non - combustible at room temperature. Flammable vapours are emitted at elevated temperatures.
Extinguishing media:	Dry chemical, CO ₂ , water spray or alcohol foam.
Special fire fighting procedures:	In the event of fire use breathing apparatus.
Unusual fire and explosion hazards:	Not established.

SECTION V - REACTIVITY DATA

Conditions to avoid:	Avoid elevated temperatures.
Incompatibility:	Contact with strong oxidisers, peroxides, strong alkalis and strong acids.
Hazardous decomposition products:	Not established.
Hazardous polymerisation:	Not established.

SECTION VI - HEALTH HAZARD DATA

OSHA Permissible:	None established.
Engineering controls:	Provide adequate ventilation.
Signs and symptoms of overexposure:	Acute: <u>Ingestion:</u> If swallowed, may cause dizziness, headache, confusion and loss of consciousness. <u>Eyes:</u> May be irritating to eyes. <u>Skin:</u> May cause sensitivity in susceptible persons. <u>Inhalation:</u> Not a likely route of exposure. Chronic: No reports available for prolonged exposure.
Medical condition generally aggravated by exposure:	None established.
Primary route of exposure and emergency / first aid procedures:	<u>Eyes:</u> May be irritating - remove excess material from around eyes. Irrigate eyes with water for 15 minutes. Consult physician if irritation persists. <u>Inhalation:</u> If symptoms arise move person to fresh air. <u>Ingestion:</u> Flush mouth with water and call a physician if necessary. <u>Skin:</u> Wash skin with soap and water.

SECTION VII - SPECIAL PRECAUTIONS AND SPILL PROCEDURES

Precautions to be taken in handling and storage:	No specific transportation procedures are recommended.
Steps to be taken in case of spillage:	Soak up with an absorbent material, place in a suitable container and properly dispose of.
Waste disposal methods:	Place in a suitable container and dispose of via landfill.

SECTION VIII - SPECIAL PROTECTION INFORMATION FOR SAFE HANDLING

Protective clothing:	Plastic apron and rubber boots are recommended for exposure to large quantities.
Eye protection:	For splash, spray or mist exposure, wear protective goggles or a face shield.
Respiratory protection:	Not required.
Other protective clothing or equipment:	None established.
First-aid facilities:	Eye wash station, shower.
Advice to doctor:	Treat symptomatically. Product considered non-toxic.
